Nashik, Maharashtra

PROFESSIONAL SUMMARY

High-achieving Computer Science Engineering student (CGPA: 9.26/10) with hands-on experience in Full Stack Development using the MERN stack and a strong foundation in Data Structures & Algorithms (DSA). Built multiple end-to-end web applications and participated in 6+ hackathons, securing finalist positions at Nirmaan (Amity University Mumbai), PVG HackHub, and Innovera National-Level Hackathons. Selected as a Contributor for GirlScript Summer of Code (GSSoC) 2026, gaining practical experience in open-source development and collaborative software engineering. Proficient in problem-solving, Object-Oriented Programming and modern web technologies, with a growing interest in Artificial Intelligence and Machine Learning. Passionate about building scalable, user-centric software solutions that create meaningful real-world impact.

PROGRAMS & INTERNSHIPS

Virtual Intern — Springboard Internship 7.0 | Infosys

Sep 2026 (Upcoming)

- Shortlisted for Infosys Springboard Virtual Internship 7.0 — a competitive industry internship program.
- Scheduled to begin September 2026, will work on real-world tech problems under industry mentorship.

Open Source Contributor | GirlScript Summer of Code (GSSoC) 2025

May 2026 – Present

- Selected as a contributor in GSSoC 2026, a nationally recognized open-source internship program.

EDUCATION

B.Tech — Computer Science Engineering | K.K. Wagh Institute of Engineering Education & Research, Nashik

2024 – 2028

CGPA: **9.26 / 10** | Relevant Coursework: DSA, OOP, Computer Networks, Operating Systems

PROJECTS

CodeForge — DSA Learning & Coding Assessment Platform

MERN Stack

- Developed a full-stack DSA learning platform featuring algorithm visualizations, coding practice, and structured learning paths.
- Built LeetCode-style problem-solving modules with leaderboards and performance tracking to enhance user engagement.
- Implemented video proctoring and tab-switch detection mechanisms to ensure fair and secure coding assessments.

SkillSwap — Campus Skill Exchange Platform

MERN Stack

- Developed a peer-to-peer platform enabling students to share technical, academic, and professional skills across campus.
- Implemented real-time messaging to facilitate seamless collaboration, mentorship, and knowledge exchange between users.
- Built secure user profiles, skill discovery, and matching features to connect learners with suitable mentors and peers.

Samvaad — Real-Time Chat Application

MERN Stack

- Developed a real-time chat application supporting one-to-one and group conversations with secure user authentication.
- Implemented messaging, online/offline presence tracking, and group chat functionality using Socket.io.
- Designed a responsive and intuitive user interface to deliver a seamless communication experience across devices.

SheCity AI — Women Safety & Smart Navigation Platform

MERN Stack / Hackathon Project

- Developed an AI-powered women safety platform featuring route risk assessment and location-based safety insights.
- Implemented real-time zone classification and intelligent safety indicators to help users make informed travel decisions.
- Built responsive user interfaces and scalable backend APIs to deliver a secure and user-friendly experience.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture

Database: MongoDB, Mongoose, SQL

Tools & Platforms: Git, GitHub, Postman, Vercel, VS Code, Google Cloud Platform (GCP)

AI & Data Science: Generative AI, Prompt Engineering, Machine Learning Fundamentals, Artificial Intelligence Fundamentals

Methodologies: Agile, Scrum, MVC Architecture, RESTful Design

ACHIEVEMENTS & EXTRACURRICULARS

- Finalist — Nirmaan Hackathon (Amity University Mumbai), PVG HackHub & Innovera National Level Hackathons
- Participated in 6+ hackathons and technical competitions — consistently reaching final rounds.
- Maintained a 9.26 CGPA till now in B.Tech (2nd year) while juggling multiple project builds and hackathons.
- Runner-Up — CPL & SYPL Cricket Tournaments; demonstrates leadership, team coordination, and performance under pressure.
- Attended AI for Techies Workshop & Google Developer Group (GDG) events for technical upskilling and community networking.

JOB SIMULATIONS (FORAGE)

Cybersecurity Analyst Job Simulation | Tata Consultancy Services (TCS)

2025

- Completed a virtual job simulation focused on cybersecurity analysis, threat identification, and security documentation.
- Gained exposure to real-world cybersecurity workflows and industry-standard problem-solving approaches.

Software Engineering Job Simulation | JPMorgan Chase & Co.

2026

- Currently completing a software engineering simulation covering financial tech systems and engineering best practices.
- Working on tasks related to real codebase contributions, data visualization, and interface development.

CERTIFICATIONS

- **AI Foundation Course** — Infosys Springboard
- **Specialized Courses** — Infosys Springboard: Data Science, NLP, Deep Learning, Computer Vision, Generative AI, Prompt Engineering, Robotic Process Automation, Agile Scrum in Practice
- **Full Stack Web Development** — Udemy
- **Google Cloud Arcade — Full Program Completion** — Google Cloud
- **Claude Code in Action** — Anthropic
- **Introduction to Generative AI** — Simplilearn
