Nashik, Maharashtra

PROFESSIONAL SUMMARY

3rd-year Computer Engineering student (CGPA: 9.28/10) with hands-on experience building full-stack and AI-powered applications using JavaScript, Python, React.js, Node.js, and FastAPI. Strong foundation in DSA with experience developing projects spanning real-time communication, distributed computing, authentication, AI/ML integration, and containerized deployments. Independently designed and built end-to-end applications including a coding assessment platform, distributed computing system, and AI-powered examination and learning platform. Finalist in 3 national-level hackathons, with a focus on building scalable and production-ready software solutions.

EDUCATION

B.Tech, Computer Science Engineering — K.K. Wagh Institute of Engineering Education & Research, Nashik 2024 – 2028
CGPA: 9.28/10 | HSC: 81.33 % | SSC: 96.40 % |

EXPERIENCE

Infosys Springboard Virtual Internship 7.0 Sep 2026

- Selected for a competitive industry internship program through a multi-stage evaluation process, will work on real-world engineering problems under industry mentorship.

PROJECTS

CodeForge — DSA Learning & Coding Assessment Platform Apr 2026

- Tech Stack:** React 19, Vite, Tailwind CSS, Monaco Editor, Node.js, Express 5, MongoDB, Mongoose, JWT, Judge0, Docker, PostgreSQL, Redis, Gemini API, face-api.js
- Designed and built a full-stack coding-assessment platform combining algorithm visualizations, LeetCode-style problem sets, and leaderboard-based performance tracking to support structured DSA practice.
- Engineered video-proctoring and tab-switch detection to preserve assessment integrity during coding tests.

CoCompute — LAN-Based Distributed Computing Platform July 2026

- Tech Stack:** Python, FastAPI, React 19, Vite, Tailwind CSS 4, PostgreSQL, SQLAlchemy, Redis, WebSockets, Docker, Docker Compose, scikit-learn, PySide6, psutil
- Developed a distributed computing platform that coordinates multiple computers over a local network, enabling workloads to be executed across available machines.
- Implemented worker discovery, task distribution, resource monitoring, and AI-based job scheduling to efficiently utilize available system resources.

Prep10x — AI-Powered Examination & Learning Platform June 2026

- Tech Stack:** React 19, Vite 8, Tailwind CSS 4, TanStack React Query, Node.js, Express.js, MongoDB, Mongoose, JWT, Docker, FastAPI, Python, Google Gemini API, PyMuPDF, OpenCV, Pytesseract, Cloudinary
- Built a full-stack examination and learning platform with secure authentication, analytics, multilingual support, and AI-assisted learning workflows.
- Developed a dedicated FastAPI-based AI microservice integrating Gemini, OCR, and document-processing pipelines for intelligent educational content generation and analysis.

Samvaad — Real-Time Chat Application Mar2026

- Tech Stack:** React 19, Vite 8, React Router 7, Node.js, Express 5, MongoDB, Mongoose 9, Socket.IO, JWT, bcrypt, Axios, Jest, Supertest, PWA
- Developed a real-time one-to-one and group messaging application using Socket.IO for live communication
- Implemented JWT-based authentication, secure password hashing, responsive PWA support, and automated API testing using Jest and Supertest.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript (ES6+)
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, FastAPI, REST APIs, WebSockets, JWT Authentication, MVC Architecture
Databases: MongoDB, Mongoose, PostgreSQL, SQL, Redis
AI/ML: Google Gemini API, scikit-learn, NumPy, Pandas, OpenCV, Generative AI, Prompt Engineering
DevOps & Tools: Git, GitHub, Docker, Docker Compose, Postman, Vercel, Render, VS Code
Concepts: DSA, OOP, DBMS, DCN, OS, Agile/Scrum

ACHIEVEMENTS

- Finalist — Nirmaan Hackathon (Amity University Mumbai)
- PVG HackHub National Level Hackathon Finalist
- Innova National Hackathon Finalist
- Google Cloud Arcade (Full Program Completion)

CERTIFICATIONS

- Infosys Springboard (AI Primer, Generative AI, Deep Learning, NLP, Computer Vision, Agile Scrum in Practice)
- Full Stack Web Development & Node.js Projects: Learn by Doing — Udemy
- Google AI Essentials & Google Prompting Essentials — Coursera
- Claude Code in Action — Anthropic
